

What you say and How you say it

We are interested in how parents' comments can affect how children feel, think, and behave.

We invite your **4-to-5-year-old child** for a 60-minute visit. Children will:

- listen to four stories
- answer questions about feelings and thoughts
- work on puzzles
- listen to adult voices and tell how that person feels
- get stickers and pick a toy

Parents will answer questions about your child, your parenting, and feelings and behaviors. Parents get \$10.00.
