Why purchase a *Commemorative Candle*?

In 1948 twenty-two people concerned about the education of young children in the Nashville area met at West End United Methodist Church. These dedicated professionals had a vision for the future of the education of young children. They took up a collection of fifty cents each, which amounted to \$11.00 which they used to set up our present day organization. We who now make up the 700+ members of the Nashville Area Association for the Education of Young Children have the same vision and concern about today's children. Through the purchase of a *commemorative candle* we can help secure the vision of those early pioneers and "Spread the Light of Quality" in the future.

(Only 60 commemorative candles are available for purchase)
